

(7) Reasons a Matrix Twister™ Removal Rental can save you money and make your job a little easier.

Pneumatic matrix removal technology eliminates spooled matrix removal on label presses.

Pneumatic Conveying Systems

1. Low Rental Rates

Capture the advantages of pneumatic matrix removal at a minimum cost.

2. Nothing to buy

Rental Units ship complete with all components and hardware.

3. Flexible Rental Periods

Rent for a week, month, quarter, year.

4. Rent for Special Runs to meet deadlines

Make peak production runs more profitable.

5. Calculate ROI accurately

Evaluate production improvement on your equipment, with your raw material and your employees.

6. Fast Shipment

Normally within (2) - (5) weeks.

7. Easy Set Up

Detailed installation instructions included in each shipment. AirTrim Technical Service personnel also available for set up.

The weekly rental fee is \$250 and confirmed through a rental lease agreement between the customer and AirTrim. There is no third party or leasing company involved in the rental unit transaction. The lease agreement can be extended as mutually agreed upon by AirTrim and the customer. Shipping costs of the unit are born by the customer. The customer is responsible for returning the unit, intact, less normal wear, to AirTrim at the end of the rental period. See "Equipment Rental Agreement" for complete details.

**10% of rental cost will apply to the purchase of the unit
or towards the purchase of a new system.**
