

## (9) Reasons Matrix Twister™ Removal Systems save you money and make your job a little easier.

The Patented\* **MATRIX TWISTER™ REMOVAL SYSTEM** is an automated method of conveying pressure sensitive adhesive waste matrix and edge trim to a compactor, baler, or other receptacle. The Matrix Twister™ twists the matrix into rope form, reducing the amount of exposed adhesive and strengthens it for conveying.

### Advantages include

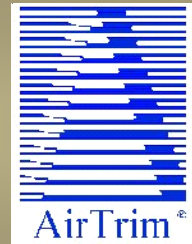

1. **Increase Label Production -** *Eliminate production interruptions to remove spooled matrix.*
2. **Maximize Press Speed -** *Eliminate forced press speed reduction to accommodate fragile matrix spool windups.*

3. **Utilize Maximum Unwind Rolls -** *run full parent rolls without stopping press.*
4. **Improve Label Quality -** *concentrate on quality printing rather than constantly monitoring matrix spool.*
5. **Eliminate Core Costs**
6. **Use smaller width stock -** *remove matrix and edge trim as narrow as 1/16" .*
7. **Save Valuable Floor Space -** *storing matrix at machine no longer necessary.*

**AirTrim, Inc.**

**Best Partner  
Best Solutions  
Best Values  
Since 1989**

8. **Enhance Baler Performance-** *Matrix "rope" compacts better than other waste.*
9. **Eliminates Heavy Lifting -** *associated with handling heavy, cumbersome spooled matrix rolls.*

What is the next step?

**Request your free Report ATR125 comparing pneumatic matrix removal to spooled matrix removal.**

**Want to know more about how the AirTrim system works?** Request your **free** copy of our Matrix Twister™ CD by calling us at 1-888-247-8746 or emailing [sales@AirTrim.com](mailto:sales@AirTrim.com). Or view the CD at [www.AirTrim.com](http://www.AirTrim.com).

We look forward to hearing from you!
